

TASNIM AFSAR

MERN Stack Developer · Feni, Bangladesh

tasnimafsar123@gmail.com | +880 1585-045382 | github.com/Tasnimafcar

PROFILE

Self-taught MERN stack developer focused on building and shipping fast, clean full-stack web applications. Comfortable across the stack — React, Vite and Tailwind CSS on the frontend, Node.js, Express and MongoDB on the backend, with hands-on experience using Supabase for auth and real-time data. Currently building a freelance career while completing higher secondary education.

SKILLS

Frontend: React, Vite, Tailwind CSS, Framer Motion, JavaScript

Backend: Node.js, Express.js, MongoDB, REST APIs

Tools & Platforms: Supabase, Git & GitHub, Vercel

PROJECTS

Feni Blood Donors Society

feni-blood-donors-society-26.vercel.app — React, Supabase, Vercel

- Built a real-time blood donor finder platform for my home district, with donor registration and live search filtering.
- Implemented authentication and session management, and resolved production issues including routing and mobile login bugs.

AI Model Hub

ai-model-hub-4l76.vercel.app — React, Tailwind CSS, Framer Motion

- Built a subscription-style AI model marketplace with animated cart functionality and modal interactions.
- Implemented a responsive mobile navigation panel using React Portals and a sticky glass-effect navbar.

EDUCATION

Higher Secondary Certificate (HSC) — In progress

Secondary School Certificate (SSC) — Completed, 2024

LANGUAGES

English, Bengali, German
